Searching for Adversaries – 2 days:

As taught to US law Enforcement, SWAT, Military and Special Forces Units

- This two-day event focuses on the finer points, principles and techniques associated with dynamic and deliberate structure clearing. Learn both conventional and unconventional 4th generation CQB tactics for operating solo or in pairs.
- Tactical problems addressed will include: 90-degree corners, common rooms, open and closed door entries, confined spaces hallways and T-intersections, opposing doorways, stairs, close quarter confrontations, and much more.
- All training will consist of hands-on technical drilling with firearm simulators allowing participants to practice instructed skill-sets throughout the day with little to no down-time.
- Conducted by P.F.C Chief Instructor Brian Hartman and Asia Pacific Lead Instructor Chris Doughty.
